Dear Mr. [REDACTED]

This is in reply to your recent letter requesting information on unidentified flying objects.

The current report on Project Blue Book, the Air Force project on unidentified flying objects, is attached for your information. This report contains information on the program since its origin in 1948.

You will be interested to know that the causes of the recent UFO sightings in Virginia are attributed to a misinterpretation of natural or conventional objects. Examples of this are research and weather balloons, aircraft and/or aircraft lights, meteors, and a satellite.

Sincerely,

JOHN P. SPAULDING  
Lt Colonel, USAF  
Chief, Civil Branch  
Community Relations Division

Feb. 2, 1964

Gentlemen:

I have been studying in Astronomy for quite a while. Last night "February 3<sup>rd</sup>" and in nights before I spotted four at different intervals within 50 min. 3 were fading red colors, and one was very bright and large, they were moving very fast. They would fade out or disappear. I would like information on the Virginia saucers being seen right now. and a report and all the information you can send me. Most of these things were coming from W to S.E. the largest had a gold streak like behind it and a kind of spot.

Sincerely Yours,  
Future Astronomer,  
[REDACTED]
